(54) METHOD FOR OUTPUT CONTROL FOR MOBILE ONLINE DATA, AND SYSTEM THEREOF

(57)Abstract:

PROBLEM TO BE SOLVED: To display on a mobile PC (personal computer) and print at a fixed-type PC contents of form data requested to a host computer, without changing substantially programs in the host computer.

SOLUTION: When accessing away from home 18 to a host computer 11 at a main office center 19 which stores contract contents of life insurance by using a mobile PC 19, the mobile PC 19 goes into a mobile online mode in response to user's operations, calls out an image display function, when receiving the form data from the host computer 11 and displays the business form data on a display. When accessing from a hub 12 to the host computer 11 by using a fixed-type PC 14, the fixed-type PC 14 calls out a printing function to print the form data by a printer when receiving the form data from the host computer 11.
